From mobile and social to virtualization and the cloud, hardware and software to security and data integrity, there is no shortage of emerging technology solutions for today’s IT experts to understand, evaluate and implement. With a unique focus on the technologies and implementation challenges chemical industry IT professionals face, the 2012 ChemITC Annual Conference brings the chemical industry’s brightest IT leaders together for four days of highly-focused educational sessions, peer presentations, affiliate member insights and networking.

WELCOME TO THIS YEAR’S CHEMITEC ANNUAL CONFERENCE

RECOMMEND TO YOUR AREA OF EXPERTISE, WE ENCOURAGE YOU TO:

- Immerse yourself in rich discussions with your peers.
- Learn more about the many innovative technology solutions available today.
- Find out how other chemical companies are addressing emerging challenges.
- Leave ready to maximize the use of technology to drive business success in your organization.

CSC CHEMICAL BEST PRACTICES LEARNING CENTER

Monday, Oct. 29 – 4:00 – 6:00p
Tuesday, Oct. 30 – 8:00a – 5:00p
Wednesday, Oct. 31 – 8:00a – 5:00p

To add to your Annual Conference experience, CSC invites you to visit its Chemical Best Practices Learning Center. This center of excellence provides Annual Conference attendees an opportunity to interact directly with experts who have hands-on experience with leading practices in the industry, including innovations in corporate productivity, mobility, analytics, cloud computing, enterprise health and safety, and operational risk management. Attendees will also see live demos of how the “Best Run” chemical companies take advantage of standard SAP processes as defined by CSC Chemicals to improve corporate productivity.

INGENIOUS MINDS
KEYNOTE & CONFERENCE DINNER
Tuesday, Oct. 30
Fairview Park Marriott Grand Ballroom
6:00 - 6:30p Reception
6:30 - 9:30p Ingenious Minds Keynote Panel and Dinner

A panel of experts representing the best of CSC’s thought leadership and innovation will discuss challenges, opportunities and solutions in the areas of cloud computing, cyber security and applications.

Siki Giunta, Global Vice President of Cloud Services and Software, CSC
Sam Visner, Vice President and Lead Cyber Executive, CSC
Glenn Davidson, Senior Partner, Modernization Practice, CSC

EXECUTIVE

ChemITC member CIOs provide the foundation upon which this innovative organization has been built. Following an afternoon of Executive Board and Committee meetings, the industry’s foremost IT leaders will engage in a variety of sessions including the strategic program and networking group updates, interesting presentations from our Affiliate members and dedicated networking time at the highly regarded CIO Roundtable. ChemITC CIOs are also invited to join their technology experts in some of the other conference sessions as their schedules allow.

SURVEY AND BENCHMARKING

The Survey and Benchmarking Program has been actively working to gain a better understanding of chemical industry IT activities and project investments this year. ChemITC members who participated in all sections of the 2011 Annual IT Survey won’t want to miss this deep dive into the processes, outcomes and learnings from this year’s survey, as well as a number of sessions dedicated to measuring the benefits of IT.

BUSINESS INTELLIGENCE TECHNOLOGY

When used to its fullest, business intelligence technology has the potential to provide sophisticated predictive value to the enterprise. Chemical company IT professionals who oversee business intelligence generation, storage and analysis of data will come together to discuss new technologies and trends, exchange information and benchmark BI usage and capabilities.

INFRASTRUCTURE

The equipment, systems, software and services used across an organization are essential to enabling the flow and processing of information. Chemical industry infrastructure experts will gather to investigate infrastructure technologies and trends, exchange useful information and share lessons learned with respect to processes, technologies, tools and governance.

IT SECURITY

Ten years ago, the chemical industry came together to develop its first sector-level cyber security strategy. A decade later, the chemical industry’s commitment to improving the safety and security of its IT and industrial automation and control systems remains steadfast. IT and industrial automation system security experts will come together for a variety of sessions featuring issues and challenges facing the industry, Department of Homeland Security initiatives and more.
### Program Aendas

#### Room Assignments
- Executive Board and Committee Meetings - Room 6
- CIO Roundtables - Room 7
- Infrastructure - Theater
- Business Intelligence Technology - Theater
- Survey and Benchmarking - Room 6
- IT Security - Room 7
- Women, IT Security Reception - EBC Dining Room
- Networking Group Receptions - Falls Church, VA
- Networking Lunch - Grand Ballroom | Fairview Park Marriott

#### Monday, October 29

### Executive Board Meeting (Closed Session)
- Tuesday, October 30
- 2:00 - 5:00
- Governance and Finance Committee (Closed Session)
- Program Committee (Closed Session)
- Executive Board Meeting (Closed Session)
2012 ChemITC Members

The Chemical Information Technology Center (ChemITC®) of the American Chemistry Council (ACC) is a forum for companies in and associated with ACC to address common IT issues. Through strategic programs and networking groups dedicated to addressing specific technology issues of member interest, ChemITC is committed to assisting companies in advancing the use of information technology to streamline processes, improve decision making and support individual company business objectives.
